

**The 14th CRIS Conference**  
**CRIS-MAC 2026**  
**Multi-messenger Astroparticle Conference**

Sorrento - Italy  
July 13-17, 2026

**FIRST ANNOUNCEMENT**

---

We are pleased to announce the 14th CRIS-MAC (Cosmic Ray International Studies and Multi-messenger Astroparticle Conference) Conference to be held in Sorrento from 13 to 17 July 2026. It is jointly organised by the Universities of Catania, Napoli and Palermo and by INFN, Catania and Napoli Divisions. As in previous editions, the conference will focus on fundamental topics in astroparticle physics with special emphasis on the multi-messenger astronomy studies.

The main focus of the CRIS-MAC conference will be the multi-messenger aspects of astroparticle physics which naturally includes fields such as Cosmic-Ray Physics, Gamma-Ray and multi-messenger Astronomy and Astrophysical Neutrinos.

We expect, as in past editions, a stimulating environment with presentations and informal discussions on these topics, the current status of various experiments, and the latest scientific results.

We plan sessions on:

- Astrophysical Neutrinos
- Cosmic Rays
- Gamma-ray and Multi-messenger Astronomy
- Experimental Methods, Techniques, and Instrumentation
- Outreach and Education

with specific emphasis on multi-messenger aspects.

For details about the conference, including registration, travel, accommodation information and submission of papers, you are kindly invited to visit the conference website at <http://cris-mac2026.na.infn.it>
