* Standard download provides the download manager that is used to obtain the installation file.
** Direct file download provides the large and complete installation file through your browser download.

9. After downloading the installer, start the software and follow the instructions.
To activate Mathematica, you will be asked to log in to your Wolfram account and click on “activate”. Otherwise choose “other ways to activate” and use your activation key.
10. Each Wolfram ID can request up to 5 activation keys for Mathematica. To request an additional key, repeat the steps 1-9.

IMPORTANT:

Each request of an activation key will be moderated by the site license administrators. Before the approval, the activation key will be valid for 15 days only. If approved, the key will be valid for the whole duration of the site license (minimum 1 year).
